

Struan Community Trust
Chairmans Report
June 2020

This past year the Trust has funded the following -

Susan MacKinnon – for the catering on the evening of the Christmas Tree lights switch on.

Collie & MacKenzie Heritage Group – for a Bronze Sculpture in Sligachan.

Community Council – for Defibrillator servicing, Grass Cutting & running costs.

Portree & Braes Community Trust – for part funding a Project Support Officer to work with SOS NHS.

Struan Development Group – for running costs.

Skye Cancer Care – for part funding of a vein viewing machine.

It was slightly disappointing that there were fewer applications this year so much so that an advert was put in the WHFP as a reminder that money is available for projects within the Struan area.

The last round of funding was agreed via email as we were unable to meet due to Covid19. We are hopeful that during this time people will have come up with ideas for projects that are needed in the area and the applications will come flooding in! Lets make positive changes in the village as there is money available to do so.

Many thanks to all the Trustees for their contributions throughout the year. Stay Safe.
